

National Registry of EMTs (NREMT) Practical Skills Testing

PURPOSE: To allow students who require psychomotor practical skills testing in order to sit for their NREMT cognitive testing.

CONTENT: This session contains testing stations to allow the student to perform and be evaluated for the psychomotor skills required for their NREMT certification before cognitive testing.

AUDIENCE: Students who require psychomotor skills evaluation to sit for the NREMT cognitive testing after successful completion of an EMT course and students who are unable to successfully complete the cognitive testing within one (1) year of the successful completion of an EMT class.

CERTIFICATION: None.

PREREQUISITES: Must have completed an approved NREMT course and have a Delaware affiliation.

CLASS LIMITS: N/A

This is not available as an In-Service training. Call to Schedule.
