

Paramedic to Delaware EMT

PURPOSE: To allow any individual currently certified as a Paramedic in the State of Delaware to practice as an EMT on a BLS unit in the State under Fire Prevention Commission Regulations.

CONTENT: This session contains the Delaware BLS Protocols. Paramedics must successfully complete the current Delaware BLS Protocols for initial EMT Certification, but will not be required to perform an EMT Refresher course in addition to the Paramedic Refresher course for recertification. The Paramedic will be required to complete any minimum training required for EMTs in order to hold BLS certification in the State.

AUDIENCE: This course is intended for Paramedics affiliated with New Castle County EMS, Kent County EMS, Sussex County EMS, and Delaware State Police wishing to practice on a BLS unit. Paramedics that are no longer employed by one of the listed agencies, may apply. If more than six (6) months since last day of employment, the applicant must follow the Reciprocity policy with their current NREMT Paramedic certification.

CERTIFICATION: Upon successful completion of requirements the applicant may be certified as an Emergency Medical Technician for a two (2) year period, and coincide with their NREMT recertification cycle.

PREREQUISITES: Must hold a current National Registry of EMTs as a Paramedic certification and have a Delaware affiliation. Paramedics shall submit a copy of their Delaware Paramedic License, National Registry Card, current AHA BLS Provider CPR/AED card or equivalent (as approved by the Delaware State Fire Prevention Commission), and an EMT Application submitted to the State Fire Prevention Commission, signed by a sponsoring EMS provider recognized to operate in Delaware by the SFPC.

CLASS LIMITS: N/A

This course is not available as an In-Service training. Call to Schedule.
