Hazardous Materials Technician 5-Day Training Program Certification Course

**THE LESSON PLANS FOR THE HAZARDOUS MATERIALS COURSES ARE
BASED ON NFPA 472, PROFESSIONAL COMPETENCIES FOR RESPONSE TO
HAZARDOUS MATERIALS INCIDENTS, CHAPTERS 2, 3 & 4 AND OSHA
1910.120, ON-SITE AND OFF-SITE EMERGENCY RESPONSE**

This class exceeds 29 CFR 1910.120(q) and NFPA 472 for the Hazardous Materials Awareness, Operations and Technician Levels. Certification from the National Board on Fire Service Professional Qualification (Pro Board) will be issued.

COURSE PREREQUISITES

All persons attending this course must be in good physical condition since all students will be required to participate in ALL course activities. Each student must be a participant in their Company's medical surveillance program complying with OSHA 1910.120, Section F and trained to operate and use Self Contained Breathing Apparatus (SCBA) addressed in OSHA 1910.134.

COURSE OBJECTIVES

- This course will teach the student to perform the procedures required to confine, contain, or control a hazardous materials problem within the capacity of the resources and personal protective equipment available.
- The student will be taught to perform hazard and risk assessment techniques necessary to mitigate a hazardous materials incident.
- Implementation of decontamination procedures will be a skill that the student should understand and carry out with a high degree of competence.
- After attending the course, a student should be able to implement a safety plan and have a higher degree of knowledge concerning basic chemical, biological, and technical terminology and behavior.

COURSE DESCRIPTION

The Hazardous Materials Technician Course is designed to bring all participants, to a higher level of understanding, to enable them to work together throughout a five-day course to assess, develop and implement an action plan to mitigate a Hazardous substance release. These include small packages, drums, totes, and various types of tank trucks, railcars and equipment within facilities.

Subjects include: Incident Management, Chemistry of Hazardous Substances, MSDS, Pesticides, DOT Hazardous Materials Classes, Shipping Papers, Placarding, Emergency Response Guidebook, NFPA 704 Hazardous Identification System, Air Monitoring, Protective Clothing, Decontamination, Medical Monitoring, Patching Small Containers, Van Trailers, Packing Segregation and Separation, Blocking and Bracing, Cylinders, Bulk Highway Trailers, Intermodal Portable Tanks, Rail Cars, Damage Assessment, Transload, Sorbents, Spill Confinement, Fixed Sites and Termination and Legal Considerations.

PROTECTIVE EQUIPMENT AND DRESS CODE

The Hazardous Materials Technician Course requires each student to actively participate in "hands-on" training. Required dress is work clothes with substantial footwear consisting of steel toe safety shoes and safety glasses. Beards are NOT permitted due to the use of breathing apparatus. Students will also require gloves and hard hats.

HANDOUT MATERIALS

Everyone attending the Hazardous Materials Technician Training class will receive the following literature as part of the handouts that are included in the tuition fee:

1. Course Student Workbook
2. Current version of the Emergency Responders Handbook by U.S. Dept. of Transportation

TUITION FEE

The fee is \$900.00 per student for the five-day program. Fee includes instruction, student materials and noon meals.

PRE-REGISTRATION

Please fill out all information requested on the pre-registration form (attached at the back of brochure) and return it to Delaware State Fire School at least **10 WORKING DAYS BEFORE** the starting date of the course selected. The maximum number of students allowed to be registered in this class is twenty-four (24). Registrations will be entered on a first-come, first serve basis, as they are received at the Fire School.

SUBSTITUTIONS

If you discover that a person cannot attend the course, you may send a substitute **IF THEY HAVE MET THE PREREQUISITES FOR THE COURSE**. Please do not exceed the total number of spaces you have pre-registered for the course.

CANCELLATION POLICY

You will be billed for those people registered for the program. If you have to cancel a person, you may do so under the following conditions. Thirty (30) days prior to class Full Refund. Eleven (11) to twenty-nine (29) days prior to class 50% refund and Ten (10) days or less no refund.

CLASS HOURS

Classes begin promptly at 8:00 A.M. ending at 5:00 P.M. each day. Please report to the Delaware State Fire School Training Center by **7:45 A.M. ON THE FIRST DAY** for administrative purposes. The certification tests – written and skill will be administered on Friday afternoon.

CONFIRMATION

You will receive written confirmation that your personnel have been accepted for the course. Please do not send additional personnel to the school if you do not have confirmed space in the course for them. If need be, please call ahead.

HAZARDOUS MATERIALS TECHNICIAN REFRESHER COURSE

THE LESSON PLANS FOR THE HAZARDOUS MATERIALS COURSES ARE BASED ON
NFPA 472, PROFESSIONAL COMPETENCIES FOR RESPONSE TO HAZARDOUS
MATERIALS INCIDENTS, CHAPTERS 2, 3 & 4 AND OSHA 1910.120, ON-SITE AND OFF-
SITE EMERGENCY RESPONSE

COURSE OBJECTIVES

At the conclusion of the course, in accordance with acceptable standards, the student shall demonstrate:

- The use of monitoring equipment
- Developing accurate hazard and risk assessments on specific scenarios
- The selection and use of levels of Personal Protective Equipment including Self Contained Breathing Apparatus and Decontamination procedures
- The proper application of cylinder and drum patching and repair equipment
- The use of patching, plugging and repair equipment
- Application of product transfer techniques
- The ability to stop leaks from railcars and domes
- The ability to accurately document the information and events at a simulated incident

COURSE DESCRIPTION

This 16-hour course is designed to give a current technician the opportunity to practice realistic and actual hands on skills, and the manner of treatment of hazardous materials and their containers.

Each student will participate in exercises using various types of instruments, patching and repair equipment and material transfer equipment and techniques. Students will have to identify and utilize the correct levels of protective clothing and respiratory protection. The hands on exercises will involve drums, cylinders, van trailers, cargo tanks and rail cars. This is an intense hands-on participation course!

COURSE PREREQUISITE

This course requires completion of a Hazardous Materials Technician Course as provided by the State Fire School or equivalent. The Fire School will determine equivalency of other courses.

All persons attending this course must be in good physical condition. Everyone will be required to participate in ALL course activities.

All students must be a participant in a medical surveillance program complying with OSHA 1910.120, Section F and trained to work in Self Contained Breathing Apparatus (SCBA) addressed in OSHA 1910.134.

AUDIENCE

This course is open to any individual who has successfully completed training to the Hazardous Materials Technician level.

TUITION

The fee is \$400.00 for the Hazardous Materials Technician Refresher Course. Cost includes instruction, noon meals, and handout materials.

DRESS CODE

Comfortable clothes, no spandex garments may be worn. NO BEARDS ALLOWED. Participants must provide their own steel toe shoes, work gloves and hard hats.

PROTECTIVE EQUIPMENT

The Delaware State Fire School utilizes only MSA Breathing Apparatus. We realize some organizations would rather use SCBA their employees are familiar with. If you elect to bring your own breathing apparatus, we will honor your Respiratory equipment use.

PRE-REGISTRATION

Please fill out all information requested on the pre-registration form (attached at the back of brochure) and return it to Delaware State Fire School at least 10 WORKING DAYS BEFORE the starting date of the course selected.

SUBSTITUTIONS

If you discover that a person cannot attend the course, you may send a substitute IF THEY HAVE MET THE PREREQUISITES FOR THE COURSE. Please do not exceed the total number of spaces you have pre-registered for the course.

CANCELLATION POLICY

You will be billed for those people registered for the program. If you have to cancel a person, you may do so up to noon on Friday prior to the class. If you do not notify the school by that time, you will be billed for the first day of the program for all no shows. This applies to all organizations. Billing is done at the completion of each course.

CLASS HOURS 8:00 a.m. – 4:30 p.m.

Classes begin promptly at 8:00 A.M. each day. Please report to the Delaware State Fire School Training Center by 7:45 A.M. ON THE FIRST DAY for administrative purposes.

CONFIRMATION

You will receive written confirmation that your personnel have been accepted for the course. Please do not send additional personnel to the school if you do not have confirmed space in the course for them. If need be, please call ahead.

Hazardous Materials Technician Training Program

24 Hour Course

THE LESSON PLANS FOR THE HAZARDOUS MATERIALS COURSES ARE BASED ON NFPA 472, PROFESSIONAL COMPETENCIES FOR RESPONSE TO HAZARDOUS MATERIALS INCIDENTS, CHAPTERS 2, 3 & 4 AND OSHA 1910.120, ON-SITE AND OFF-SITE EMERGENCY RESPONSE

The 24 hour Technician class is designed for the Industrial Responder who has knowledge of hazardous materials. This course meets 29 CFR 1910.120(q) for Hazardous Materials Technician.

COURSE PREREQUISITES

All persons attending this course must be in good physical condition since all students will be required to participate in ALL course activities. Each student must be a participant in their Company's medical surveillance program complying with OSHA 1910.120, Section F and trained to operate and use Self Contained Breathing Apparatus (SCBA) addressed in OSHA 1910.134.

COURSE OBJECTIVES

- This course will teach the student to perform the procedures required to confine, contain, or control a hazardous materials problem within the capacity of the resources and personal protective equipment available.
- The student will be taught to perform hazard and risk assessment techniques necessary to mitigate a hazardous materials incident.
- Implementation of decontamination procedures will be a skill that the student should understand and carry out with a high degree of competence.
- After attending the course, a student should be able to implement a safety plan and have a higher degree of knowledge concerning basic chemical, biological, and technical terminology and behavior.

COURSE DESCRIPTION

The Hazardous Materials Technician 24 Hour Course is designed to bring all participants to a level of understanding, to assess, develop and implement an action plan to mitigate a Hazardous substance release. These include small packages, drums, totes, and various types of tank trucks, railcars and equipment within facilities.

Subjects include: Incident Management, Chemistry of Hazardous Substances, MSDS, Pesticides, DOT Hazardous Materials Classes, Shipping Papers, Placarding, Emergency Response Guidebook, NFPA 704 Hazardous Identification System, Air Monitoring, Protective Clothing, Decontamination, Medical Monitoring, Patching Small Containers, Van Trailers, Packing Segregation and Separation, Blocking and Bracing, Cylinders, Bulk Highway Trailers, Intermodal Portable Tanks, Rail Cars, Damage Assessment, Transload, Sorbents, Spill Confinement, Fixed Sites and Termination and Legal Considerations.

PROTECTIVE EQUIPMENT AND DRESS CODE

The Hazardous Materials Technician 24 Hour Course requires each student to actively participate in "hands-on" training. Recommended dress is work clothes with steel toe safety shoes. Beards are NOT permitted due to the use of breathing apparatus. Students will also require gloves and hard hats.

HANDOUT MATERIALS

Everyone attending the Hazardous Materials Technician Training class will receive the following literature as part of the handouts that are included in the tuition fee:

1. Course Student Workbook
2. Current version of the Emergency Responders Handbook by U.S. Dept. of Transportation

TUITION FEE

The fee is \$600.00 per student for the three-day program. Fee includes instruction, student materials and noon meals.

PRE-REGISTRATION

Please fill out all information requested on the pre-registration form (attached at the back of brochure) and return it to Delaware State Fire School at least **10 WORKING DAYS BEFORE** the starting date of the course selected. The maximum number of students allowed to be registered in this class is twenty-four (24). Registrations will be entered on a first-come, first serve basis, as they are received at the Fire School.

SUBSTITUTIONS

If you discover that a person cannot attend the course, you may send a substitute **IF THEY HAVE MET THE PREREQUISITES FOR THE COURSE**. Please do not exceed the total number of spaces you have pre-registered for the course.
