

Day	Topic	Description/Notes	Classroom /Lecture	Practical
	Structural Burn Session	Structural Burn Session	.5	2.5
	SBS & Veh Rescue Skills	Structural Burn Session & Vehicle Rescue Day (Weekend - Full of Half Day)	.5	3-6
	Hose Evolutions and Pumps*	Review hose line use, Hydrant, pumping and water supply practices	.5	1.5
	Hydrant Evolutions*	Practical application of establishing a water supply/in conjunction w/ hose evolutions	.5	1.5
	Truck Co/Aerial Operations*	May be in conjunction with other training, Ladder/aerial placement, Ventilation and S & R	.5	1.5 - 2.5
	Saws, Fans and Special Services*	The basic operations & maint of fans & saws, actually setting PPV & NPV, roof simulations for ventholes	.5	1.5 - 2
	Vehicle Fires	Understanding the basics of Veh Fires and unexpected hazards, recognizing poss. arson	1	1
	High Rise/Commercial tactics	Understanding basics of fire attack in highrise building (hotels, motels, nursing, apt & office buildings)	1	1 - 2
	Highrise/standpipe Ops	Utilizing high rise pack in maneuvering evolutions, advancing hoselines with multiple flights	.75	1.25-1.75
	Foam and Foam Application	Properties of A & B foam and proper use and application, and the use of foam equipment	.5	1.5-1.75
	Building Construction	Overview of types of Construction and collapse hazards (with examples in the local)	2 - 3	0
	Water Supply/Drafting - Hoses	Go over hydrant ops & drafting while non-drivers and officers maneuver hoses and flow water	.5	1.5
	Vehicle Rescue	Vehicle Rescue Skills	.5	1.5 - 2
	Rope and Knots	Overview of ropes, knots and riggings, high angle equipment	1	1
	Basic Rescue practices	Using Ropes, knots and riggings in rescue situations	.75	1.25 - 2
	Confined Space review	A review of Confined Space practices and equipment review, ropes, rigging, & knots	.75	1.25 - 2
	Confined Space practice	Application of Confined Space training	.25	3
	Water Rescue awareness	Swiftwater rescue review, use of PFDs and throw ropes, knots and rigging review/practice	1.5	1
	Aeromedical Service	LZ Safety	2	0
	Elevator Rescue	Review of elevator general and emergency operations	2	1
	RIT	In house to reinforce skills needed for RIT assignment (weekend training(s) later)	.75	1.25 - 2
	Basic Firefighter Survival*	A review of the basics for self extrication and SCBA emergencies (w/ call mayday)	.75	1.25 - 2.25
	Calling the Mayday*	Set up an obstacle course to catch FF's of guard. In conjunction with Survival Drill	.5	1.5 - 2.25
	FF Search and Rescue*	A review of basic S & R techniques during structure fires, including a large area search review/demo	.5	1.5 - 2.25
	Communications/Size up/Tactics	Understanding radios and MDC's, develop radio skills on size up, run given scenarios according to SOGs	2	0
	Review of SOG's on fireground*	Go over policies for command, operations and clean up. (boring, but necessary)	2	0
	Review/Practice of ICS Desktop*	Command situations run by firefighters for when officers are unavail to have a better understanding of ICS	2.5	0
	Understanding mutual aid	A review of what surrounding companies have and can do for when an officer is not available	2	0
	Alarm Systems	Review of alarm & sprinkler systems, what to look for & what to do when on an alarm call	2 (1)	(1)
	Start Triage Review	Practical evolution with EMS and Fire providing care at MCI's (bus accident,etc)	.5	1.5 - 2
	Firehouse Jeopardy	Trivia of the fire service and Fire Co. history	1 - 1.5	0
	Dodgeball/Softball/Volleyball	A fun way for Physical Conditioning (with or without gear)	0	2
	Fire Fighter Competition	Another fun way for Physical Conditioning	0	2
	Physical Conditioning	Some type of Physical Conditioning/ Game	0	2
	Bloodborne Pathogens	OSHA Bloodborne Pathogens review	1.5-2	0
	Haz Mat Awareness Level	HAZMAT awareness review	2	0
	Haz Mat Ops/ Ops refresher	HAZMAT review and skills	2	1
	9-1-1 Center Tour	Getting out of the firehouse for a better understanding of the local dispatch system	2 - 3	0
