

YOU'RE INVITED
to Experience the New
SOLBERG® 3% MIL-SPEC SFFF
at Delaware State Fire School

**Norbe Puroll and Mark Siem to Speak on Fluorine-Free
Training Experiences at DSFS**

Due to high demand, Perimeter Solutions will host an additional demonstration and training session featuring its newest fluorine-free foam concentrate, SOLBERG® 3% MIL-SPEC SFFF, on **April 29, 2024, at Delaware State Fire School.**

The session will include one hour of classroom instruction followed by two hours of live burn fire extinguishment, using E111 fuel as the ignition source. **Perimeter Solutions** will demonstrate how to properly use **SOLBERG 3% MIL-SPEC SFFF** fluorine-free foam.

Location:

Delaware State Fire School
1461 Chestnut Grove Road
Dover, Delaware 19904

Agenda:

Registration at 8:30 AM
Program at 9:00 AM
Lunch at 12:00 PM

TRAIN WITH THE FIRST FLUORINE-FREE FOAM CONCENTRATE ON THE DoD QPL!
SOLBERG® 3% MIL-SPEC SFFF is the first (and currently the only!) fluorine-free foam concentrate to be added to the Department of Defense Qualified Products List. Now that a fluorine-free foam has been added to the QPL, **federal regulations** give airport authorities and other government agencies **required to use MIL-SPEC qualified products** the ability to transition from aqueous film-forming foam to a fluorine-free solution.

Airport fire safety personnel are encouraged to attend these free training sessions, but **space is limited!**

To reserve your spot, **RSVP** to **Norbe Puroll** at Perimeter Solutions, by emailing norbe.puroll@perimeter-solutions.com or calling **928-606-6465**.
