Prohibited Use of ChatGPT and Similar AI Tools

The use of ChatGPT, or any other generative AI platform (e.g., GPT models, similar conversational agents, or automated content generation tools) is prohibited for the following purposes:

- **Content Creation:** Students are prohibited from using AI tools to generate content for official organizational communication, marketing, reports, presentations, or any other internal or external documentation.

For questions or further clarifications regarding this policy, please contact a Training Administrator.

Delaware State Fire School Certification Written Skills Formatting Guide

This guide will help guide you on the required formatting for all written certification skills. Skills submitted not following these guidelines will not be graded and returned. Skills being submitted using APA guidelines should exceed these requirements. Be sure to understand what may fall outside of these guidelines when writing specific skills, such as writing a report, a memo, or a press release.

Basic format rules:

- ALL skills shall be typed. Handwritten skills will be returned.
- Use a font like **Times New Roman** or **Arial**, and in size 12 font
- Skills should be 1 1/2 -spaced or double-spaced
- Margins should be 1 inch (this is the default in Word)
- Use clear, professional language in your writing. No slang or metaphors should be used.
- All skills shall have your name, the level being challenged, and the date. This can be easily done in the header or the footer of the document. Page numbers are not required but may help in the case of evaluations needing correction. You will not need a title page, unless for a presentation or otherwise noted in the skill.
- You only need to include references if using materials outside your company/department policies or the assigned textbook.

Other guidance/tips:

- The focus of your skills should be based upon the information in the instructions and from information gathered from your research surrounding your department or the example given. BE SURE to read all the instructions to be sure to understand the requirements and expectations of the skill.
- Follow all the JPR checklists to ensure you cover all the JPRs in your skill. It is recommended that you make a footnote or note in parenthesis (2) before or after the section addressing the JPR number in the skill. This will help with the evaluation of the skills and point out to the evaluator where you are attempting to address that specific JPR.
- Names used should not be actual members, although you may use your company's/department's name if allowed.

Name _____ Date _____

Objective Develop a policy or procedure that addresses an administrative problem. *[NFPA® 1021, 5.4.1, 5.4.6]*

Directions

1. Answer the following question:
 - What are the steps necessary for determining the need for a new or revised policy for the fire department? List and describe these steps on a separate document.
2. Read the scenario below then describe your course of action to develop a new fire department policy based on the situation(s) presented.
3. Prepare the policy procedures on a Word Document.

Resources

- Scenario
- Example Exchange Policy

Skill Sheet 1

Scenario

Shift Exchange Policy Development

The Chestnut Grove Fire Department has been utilizing an informal method to allow members to exchange shifts with other members of the department. Recently, there have been several problems with the old method, including:

- Members of unequal rank or qualifications exchanging shifts. This has resulted in reduced performance for the company.
- Multiple exchanges (three or more party exchanges) have led to confusion as to who was working when.
- Missed shifts because the date of the exchange was forgotten by one of the parties in the exchange.
- On at least one occasion a firefighter worked four shifts (96 hours) in a row because of exchanges that were made. Fortunately, there were no major emergencies during the final tour of duty that required an emergency response.
- A firefighter became ill and could not fulfill an exchange agreement. This required the originally scheduled employee to report to work, missing a long planned trip with their family. This caused a rift in the department because many felt that both were right and fire administration was being overly harsh in its enforcement of the full staffing policy.

The City's Human Resources Department has also expressed frustration with the current method. The City's legal council is also concerned about how the system works, feeling that there may be potential liability to the City if a firefighter is injured while working a shift exchange under the current rule. They both have been pressuring Chief Nabors to adopt a

policy that clarifies the provisions of a shift exchange policy that can be tracked and complies with labor rules for hours worked by firefighters. Chief Nabors has appointed you to begin the development of this new policy.

The elements of a new policy should include the following:

- Shift exchanges can only occur between firefighters of equivalent rank.
- Duty exchanges must be initiated a minimum of two weeks prior to the first exchange date.
- All exchanges must be approved by the company officers of the personnel entering into the agreement.
- Firefighters participating in a shift exchange can work no more than 48 hours in a row.
- Shift exchanges are between two firefighters; three or more parties are not allowed in an exchange.
- Exchanges may not be made while an employee is on probation.
- Once an exchange is finalized, the firefighter who agreed to the exchange is committed to the shift agreed upon.
- Firefighters who become ill prior to or during the exchange shift must use their own sick leave for the absence. All fire department attendance policies are applied to the exchange employee.
- There are no limits on the number of exchanges an employee may enter into in a given year as long as the other limits imposed by the policy are adhered to.

To help get started, you have obtained an Exchange Policy from a neighboring department, the Nextdoortown Fire Department, as an example of some of the information that might be included in the Chestnut Grove Fire Department policy. A copy of the policy is shown below.

Skill Sheet 1

Example Exchange Policy

<p>FIRE DEPARTMENT OPERATIONS</p> <p>SHIFT EXCHANGE POLICY</p>	<p>NEXTHOORTOWN FIRE DEPARTMENT FIRE DEPARTMENT OPERATIONS</p> <p>S.O.G. 111.A February 2, 2014 Approved by: Cliff Jones Page 1 of 1</p>
<p>PURPOSE: To establish a policy for the implementation of a shift exchange policy to permit shift trades between fire personnel of equivalent rank.</p> <p>SCOPE: This procedure applies to all employees assigned to the suppression division of the Nextdoortown Fire Department and work a 24 hour shift schedule.</p> <p>PROCEDURE: Duty shift exchange is permitted between two agreeing members of the department.</p> <p>The members must each be of equivalent rank and possess identical qualifications so that the performance capabilities of the department are not degraded during the exchange.</p> <p>All exchanges occur at change of shift time and remain in effect for the entire shift.</p> <p>All exchange of shift agreements must be approved by the battalion chief of the shift and the company officers where the exchanges occur.</p> <p>Ensuring that all fire department staffing requirements are met as the result of a shift exchange are responsibilities of the parties in the exchange. Employees remain responsible and will be held accountable for the shifts they are originally scheduled to work.</p>

Objective Construct a departmental budget that addresses capital, operating, and personnel costs. [NFPA® 1021, 5.4.2]

Directions

1. Using the information described in the scenario below, develop a *detailed budget* for a new departmental program. Use the blank Project Budget Worksheet to create the budget.
2. In a memorandum format, prepare a *project proposal* that includes 1) a description of the project, and 2) a program justification. Please prepare the memorandum on a Word Document.

Note:

When you have completed both forms, attach the Project Budget Worksheet to the program justification memo and submit them together.

Resources

- Scenario
- Budget Worksheet

Skill Sheet 2

Scenario

ISO Budget Request

The Chestnut Grove Fire Department has identified the need to establish an incident safety officer (ISO) program at the company level. The chief has requested that you prepare a program budget request to begin the implementation process for this position. The justification of the program is that it is required by NFPA® 1500, *Standard on Fire Department Occupational Safety and Health Program*. Additionally, there have been three serious injuries during fire operations in the last 12 months. It has been determined by the fire department and the Anytown Association of Fire Fighters (AAFF) that each of these accidents could have been prevented or minimized if an ISO had been present.

You determine that all officers on the department (10 personnel) should receive a two-day course from a qualified instructional source on ISO. Following the course, an ISO kit would be placed in the battalion chief's vehicle for use by the ISO. The kit will contain a vest, ISO helmet, notebook, digital camera, and tape recorder. All these materials must be purchased. After the course is complete and items are purchased, an available officer at each scene would be appointed by the IC to be the ISO.

You have visited with the deputy chief for operations, John Larston. He has directed you to put the proposal in a memo to him. He recommended that the memo clearly explain the program, the justification, and the benefit to the department. Also, he recommended that a budget worksheet be completed on the cost of implementing the program.

The following is information about the overall project, equipment that will be required, and training that will be received by those participating in the class:

- The two-day course will cost \$25 per person, not including the textbook. The textbooks are \$48 and each student must have one.

- On each day you must pay overtime for two (2) captains and two (2) lieutenants. The overtime rates per hour are \$16/hr and \$12/hour respectively. You should anticipate each day's class being 8 hours long.
- The equipment costs are listed below.
 - Leather case - \$150
 - ISO vest - \$35
 - Metal notebook/binder - \$22
 - Digital camera (waterproof) - \$750
 - Mini-cassette recorder - \$80
 - ISO helmet - \$175
 - Office Supplies (Annual) - \$200

These are startup costs for the program. An annual budget item for continuing training and for the replacements to the program as vacancies occur will be necessary.

Name _____ Date _____

Objective Analyze a scenario to determine the point of origin and preliminary cause of the fire. *[NFPA® 1021, 5.5.1]*

Directions

1. Read the scenario provided below.
2. Using a Word Document, create a detailed report that determines:
 - The point(s) of origin of the fire described in the scenario
 - The cause of the fire

Note:

Your narrative should provide justification for all decisions and include the following additional information:

- A floor plan drawing of the structure that includes notation of pertinent evidence locations regarding the fire
- A field sketch of the site where department apparatus were located during suppression operations

Use the blank field sketch and floor plan forms to create your additional documents. An illustration of the incident structure has also been provided to assist you. Assume you will be sending the report, along with all accompanying materials, to the Fire Marshal.

Resources

- Scenario

Skill Sheet 3

Scenario

Chestnut Grove Fire Department Engine 5, commanded by Captain Smith, has been dispatched to a reported structure fire at 02:30 hours, February 15th, at 9120 West Olive Avenue. West Olive Avenue is a one-way street with east-bound traffic only. Engine 7 and Ladder (Truck) 4 are also assigned to the alarm. Engine 5 is the first unit on the scene and is positioned on the northeast corner of the structure. Captain Smith finds that light smoke is coming from the open front door of the building and flames are visible through a window located next to the door. The structure houses the Fish Shack, a small fishing, tackle, and bait shop. Captain Smith orders a 1¾" (45 mm) attack line to the front door to begin suppression operations. While preparing to enter with the attack crew, he notices a small fire burning in the northeast corner of the front showroom. As the crew enters the room, he sees flames behind the west service counter at the back of the room. This is a small fire inside of a 32-gallon (128 L) plastic trash receptacle located against the west wall. He has the hose crew advance and extinguish this fire after they put out the fire in the northeast corner. Ladder (Truck) 4 arrives and is positioned at the front of the structure. Captain Smith assigns L-4 to shut off utilities and check the rear of the structure. While they are doing this, they notice that the rear door that leads to a storage area is open and a small fire is burning in the southeast corner in a pile of cartons and paper. Engine 7 arrives, lays a 5" (125 mm) supply line from the hydrant 200 feet (60 m) west of the structure to E-5, and positions beside E-5 to the east of the structure. Captain Smith orders E-7 to advance a 1¾" (45 mm) attack line from E-5 to the rear door and extinguish the fire that L-4 located.

With all fires extinguished, Captain Smith begins the investigation. The front door shows no signs of forced entry. In the front of the structure, located behind the west service counter, he finds an empty can that contains a trash can of lighter fluid. Also found in the bottom of the trash receptacle with other debris are the remains of six matches taped together around what appears to be a burnt cigarette filter. Further examination at the front of the store finds a similar device in the northeast corner of the

front of the store in a rack of burned clothing. Continuing to the stock room at the rear of the building, Captain Smith locates newspapers that have been tightly wadded on top of the cardboard and paper that had burned in the southeast corner. During his investigation, Captain Smith finds a small natural gas jet on the tackle repair table in the "ON" position. This table is located on the east wall of the stock room.

The incident structure's dimensions are 24 x 48 feet (7 x 15 m) with a wall at the mid-point of the structure. A doorway in the middle of this wall has display counters on either side. There is a non-rated door in the middle of this wall that leads to the stock room. There is a plate glass front door set in a metal frame and a steel door at the rear of the structure. Each of the doors are located at the mid-point of the front and rear walls.

Dispatch Record

Incident Number 14-00285

Time	Speaker	Communication
0326	911 Call:	Smoke from Diggins Restaurant on Thunderbird Road.
0327	Alarm Room:	Dispatches E-2, E-4, and L-4
0328	E-2:	All units responding.
0330	Alarm Room:	Reports weather conditions. Light rain. Wind out of the northwest at 7 mph (11 km/h). Temperature at 37°F (3°C). Reports fire scene conditions. Heavy black smoke, unknown occupancy.
0338	E-2:	On scene
0340	E-2:	Size-up: 50 X 100 feet (15 X 30 m) frame structure with smoke showing. Establishes Thunderbird Command. In offensive mode, advancing an attack line to the front door of the building.
0345	E-4, L-4:	On scene. Awaiting assignment.
0346	Command (E-2):	E-4 to establish water supply for E-2. L-4 to perform search and rescue and RIT. Two personnel for S&R, two for RIT.
0346	E-4, L-4:	Confirms orders.
0348	L-4:	Starts primary search (right-hand search pattern).
0349	E-4:	Establishes water supply. Shuts off utilities.
0349	Command:	Makes entry into structure on south side (Thunderbird Road side) with two personnel.

Time	Speaker	Communication
0351	L-4:	Reports fire location at northeast corner of structure.
0351	Command:	Acknowledges fire location. Requests BC, EMS, Mutual Aid
0351	Alarm Room:	Dispatches BC-19, ISO-19, PA-101, Rehab-1, E-5, E-6, L-1.
0353	BC-19:	Responds with ISO-19, PA-101, Rehab-1.
0353	Command:	Initiates fire attack. Requests E-4 pull second handline for interior attack.
0354	E-5:	Responds with E-6, L-1
0355	L-4:	Establishes RIT.
0355	E-4:	Confirms order. Makes entry with second handline for interior attack with two personnel.
0356	BC-19:	On scene. Assumes Thunderbird Command. Assigns E-2 as Interior Division. Operations remain in offensive mode with an interior attack by E-2, E-4, and L-4.
0358	ISO-19:	On scene with PA-101, Rehab-1. Conducts 360-degree scene safety inspection.
0359	Alarm Room:	Inquires about primary search.
0400	E-5:	On scene with E-6, L-1.
0400	ISO-19:	Establishes rehab area on the southwest corner of 88 th and Thunderbird Road.
0401	L-1:	Raises aerial to roof. Attempts vertical ventilation.
0402	E-5:	Establishes Diggins Command. Assigns E-6 with fire attack.

Time	Speaker	Communication
0403	Command:	Questions E-5 "What are you guys doing? I've already established Thunderbird Command."
0403	Alarm Room:	Notes no response from E-5 to Thunderbird Command.
0405	E-2:	Reports fire extinguishment. Begins overhaul.
0405	ISO-19:	Initiates accountability check.
0406	All Units:	Responds with accountability.
0406	ISO-19:	Reports 100% accountability for E-2, E-4, L-4, PA-101, and Rehab 1. Reports confusion with E-5, E-6, and L-1.
0408	Command:	Acknowledges accountability report. Questions E-5 for second time.
0408	Alarm Room:	Notes no response from E-5 to Thunderbird Command.
0410	E-2:	Completes overhaul. Recommends stop loss.
0411	Command:	Acknowledges stop loss.
0412	E-2:	Exits structure with E-4 and L-4 (total of six personnel).
0422	Command:	States confrontation with E-5 (mutual aid). Clarifies scene management.
0423	Command:	Assigns E-2, E-4, and L-4 personnel to reservice apparatus and return to fire department.
0424	Command:	Terminates Thunderbird Command.

Candidate: _____

Date: _____

Fire Officer II – 1021	NFPA - 2020	Skill Sheet # 4
Develop a Post Incident Analysis		Objective(s) 5.4.5, 5.7.1
Evaluator Instructions: The candidate shall develop a post-incident analysis (PIA) for a multi-unit response.		
Location: N/A		
Performance Outcome: The candidate shall be able to sufficiently review and create a written document containing for presentation a summary of an incident, identifying areas of success and areas of improvement, including an executive summary, according to any department or AHJ policies and procedures.		
Required Equipment: Pen and paper, or a computer with word processing.		

Needs Improvement 1 - 2 - 3 Effective - 4 - 5 Exceeds Minimum Standards					
Analyze and Assemble Information	Does not gather applicable data from on-scene resources or analyze/assemble information to draft a clearly written PIA.	Gathers and assembles information/data, but information/data is not applicable or incomplete.	Gathers applicable data from on-scene resources and analyzes/assembles information to draft a clearly written PIA focusing on strategies and tactics, safety issues, incident successes, lessons learned, and recommendations for future training.	Communicate with other personnel during information gathering to achieve a full picture of the incident.	Documents and organizes size-up information so it is easily accessible throughout IAP development and implementation
Finalize PIA Document	Does not create a final PIA document and executive summary for use in post-incident analysis	Creates a final PIA document and executive summary but does not distribute PIA document/executive summary	Compiles results of analysis into final PIA document for use in post-incident analysis and executive summary; PIA documents are formatted correctly and are free of grammatical errors.	Ensures PIA document is peer-reviewed	Prepares PIA for publication in peer-reviewed fire science journals.
Conduct PIA	Does not record the PIA in the department records system; does not plan to implement PIA recommendations.	Schedules a time/location for analysis but does not provide information/PIA to participants; conducts formal PIA but the process is incomplete or incorrect.	Prepares for formal PIA by scheduling time/location for analysis, informing participants of time/location, and providing final copies of PIA to participants	Describes arrangements for meeting accommodations for participants by utilizing community business partnerships.	Describes the method to confirm invitation and confirmation of participants to the PIA to help assure the most participation.

Name _____ Date _____

Objective Analyze scenarios and make recommendations based on member history. *[NFPA® 1021, 5.4.5, 5.7.1]*

Directions

1. Read the scenario provided below.
2. Analyze the three accident reports that accompany the scenario. Using the blank memorandum form, prepare a memo on a Word Document to Battalion Chief McCardle outlining approaches that can be taken to improve safety in the department. Be sure to detail any specific recommendations for safety measures.

Note:

The memo should address the type(s) of risks presented in the scenario and ways the department can improve brush pumper driver safety. The three pre-written vehicle accident reports can be used to support your recommendations.

Resources

- Scenario
- 3 Vehicle Accident Reports

Skill Sheet 5

Scenario

You are a company officer of the Chestnut Grove Fire Department assigned to Fire Station 7, A shift. Fire Station 7 is located near a large housing development, over three square miles (7.8 km²) in size, and is situated in an wildland/interface environment. Anticipating an emerging threat posed by the possibility of brush and forest fire potential, the fire department stationed Brush Unit 7 in Fire Station 7.

David Dent is the senior firefighter on your shift and is the designated D/O for BU-7. He has been trained to operate fire department engines and aerial devices. Though national statistics indicate that brush units suffer the same accident rate as other fire apparatus, BU-7 has been involved in three accidents with only a small number emergency calls. Firefighter Dent has been the operator in all three accidents. No other accidents have been reported when other Driver/Operators are assigned to the vehicle. Though none have been resulted in an injury, you believe that additional investigation and analysis are needed. The vehicle accidents have occurred often enough that you have become very concerned and believe that a more serious event could happen.

During the time that BU-7 has been in service, it has responded to 317 emergency calls. These calls by shift are:

- 102 - A Shift
- 99 - B Shift
- 116 - C Shift

Of the 102 emergency calls that BU-7 has responded to during A Shift, Firefighter Dent has been on duty and assigned to this vehicle for 95. Each of the other operators of BU-7 has as many responses in the unit as Dent.

D/O Dent is approximately 5'5" (2 m) in height, and wears glasses but his vision is corrected to 20/20. The other drivers assigned to BU-7 are each over six feet (2 m) tall.

BU-7 is a four-wheel drive vehicle on a standard pickup truck frame that has had a commercial fire body installed on the back. The cab is slightly higher than a normal pickup truck and due to the size of the fire body, oversized mirrors have been installed. These mirrors are of the type used on large trucks. The mirrors can be adjusted inward and outward, but will not move up or down.

Skill Sheet 5

CHESTNUT GROVE FIRE DEPARTMENT VEHICLE ACCIDENT REPORT 1

Date: 03/04/13	Vehicle Assigned Location and Address: Fire Station 7 15673 Hatfield Road
Vehicle Designation: BU-7	
Name of Operator: D/O Dent	Vehicle Type: Brush Unit
Driver's License Number: 12345678	Shift: A
Incident Number: 05-067324	Fire Incident Type and Location: Wildland interface fire. Clear Wood Estates Development
Police Department Accident Report Number: 05-030434769	
Injuries: No injuries	
Accident Description Narrative: While responding to a reported field fire D/O David Dent struck a parked car as he tried to drive around a vehicle pulled to the side of the road. The front right side of BU-7 struck the left front quarter panel of the vehicle. D/O Dent was traveling about 35 miles per hour (56 k/h) at the time of the accident and was trying to make a right turn from Clearwater Springs Road onto Bennett Street. The vehicle that was struck by BU-7 was stopped at the intersection.	
Accident Cause Narrative: D/O Dent was operating the BU-7 at 35 mph (56 k/h) in a 20 mph (32 k/h) zone while responding to a reported wildland fire in the Clear Wood Estates housing development. While attempting to make a hard right turn around a parked vehicle at the intersection of Woodland Acres Drive and Aspen Place, he struck a stopped vehicle. The vehicle was impacted on the left side suffering extensive damage from the driver's door forward. BU-7 sustained damage to the right front quarter panel and passenger door. Additionally, the right front tire was flattened. D/O Dent stated that he was watching for traffic to his left and began to make the turn, misjudging the proximity of the other vehicle. D/O Dent claimed that when looked out the right side window, the mirror blocked his view of the vehicle to his right.	
Supervisor/Manager: Your name	Driver/Operator: <i>David Dent</i>

Skill Sheet 5

CHESTNUT GROVE FIRE DEPARTMENT VEHICLE ACCIDENT REPORT 2

Date: 10/23/12	Vehicle Assigned Location and Address: Fire Station 7 15673 Hatfield Road
Vehicle Designation: BU-7	
Name of Operator: D/O David Dent	Vehicle Type: Brush Unit
Driver's License Number: 12345678	Shift: A
Incident Number: 07-080424	Fire Incident Type and Incident Location: Brush pile. Northwest quadrant of the Tall Red Oak Estates subdivision – no roadway.
Police Department Accident Report Number: 06-1023156348	
Injuries: No injuries.	
Accident Description Narrative: Following the extinguishment of a large brush fire, D/O Dent was returning to service when he struck a tree with BU-7. The tree was struck by the right side of the vehicle. The impact severely damaged the fire unit. The fire body, including all compartments on the right side, was crushed and the 200-gallon (800 L) water tank was ruptured. The fire pump was broken from its mountings. The right rear wheel well was displaced into the rear tires. D/O Dent stated that he had just begun to move the vehicle and was turning it around when the accident occurred. He also stated that he had checked his mirrors for objects but because of the location of the right side mirror he did not see the tree.	
Accident Cause Narrative: The accident occurred in an area that was being prepared for development and was covered with slash and debris from these operations. The area where the accident happened was relatively clear except for the oak tree that was struck by BU-7 and about 300 feet (90 m) from the location of the fire. D/O Dent stated that he had just begun to move the vehicle and was turning it around when the accident occurred. He also stated that he had checked his mirrors for objects but because of the location of the right side mirror he did not see the tree as he turned.	
Supervisor/Manager: Your Name	Driver/Operator <i>David Dent</i>

Skill Sheet 5

CHESTNUT GROVE FIRE DEPARTMENT VEHICLE ACCIDENT REPORT 3

Date: 11/14/11	Vehicle Assigned Location and Address: Fire Station 7 15673 Hatfield Road
Vehicle Designation: Brush Unit 7	
Name of Operator: D/O David Dent	Vehicle Type: Brush Utility
Driver's License Number: 12345678	Shift: A
Fire Incident Number: 04-038976	Fire Incident Type and Location: Brush fire. Northwest section of Sweethomes Development.
Police Department Accident Report Number: 04-111412540	
Injuries: No injuries.	
Accident Description Narrative: While responding to a reported brush fire BU-7 struck a stop sign on the northeast corner of Carol Avenue and Hatfield Road as it was making a right turn. The stop sign was knocked over and run over by BU-7. The vehicle suffered damage, mostly scraped paint, to the right door and right side of the fire body. D/O Dent stopped the vehicle and checked it for damage, and finding it minor proceeded to the fire for fire suppression activities. Dent claimed that when he looked to the right, the mirror on the passenger side partially blocked his vision causing him to misjudge the proximity of the curb and sign.	
Accident Cause Narrative: The accident occurred while D/O Dent was attempting to make a right turn. The vehicle was turned too early and the rear of the vehicle went over the curb and struck the stop sign. Driver Dent stated that he was traveling at about 45 miles (72 k/h) per hour. The posted speed limit is 25 miles (40 k/h) per hour.	
Supervisor/Manager: Your Name	Driver/Operator: <i>David Dent</i>

Skill Sheet 7

Objective Conduct a performance evaluation. [NFPA 1021, 5.2.2]

Student Name: _____

Date: _____

Directions

Review the following scenario. Based on the information in the scenario, complete Form 100-1, Annual Performance Evaluation, for Driver/Operator John Smith. Assume you are the captain on the shift and Smith's direct supervisor. Add any pertinent comments in the comment section of the form. This may include recommendations on improving performance, recognizing excellent performance, training needed, etc. Use your signature and today's date on the signature line for the company officer.

Scenario

You are the supervisor of Driver/Operator John Smith. Smith has worked for you for the past 2½ years. It is time for his annual performance appraisal. The performance period is January 1 through December 31 of last year.

Overall, Smith is a steady performer. He is not a 'shining star' but neither is he a sluggard. He is there when you need him and he is always willing to help when asked. On his last annual performance he received an average score of 2.33 (out of 3) overall.

Smith's one strong area is his driving and pumping ability. He is known as the best pump operator on the job. He takes time to try and teach younger firefighters how to do rule-of-thumb and set up the pump. During the 11 years he has been a driver he has never received a ticket, warning or any type of citation. He has never been involved in even a scratched fender. In preparing for the evaluation you review the following notes you have made during the previous year.

- In January and February Smith helped two firefighters prepare for the driver/operator promotional test. Both firefighters made the promotional list and have been promoted.
- On May 3 you had to discuss the condition of Smith's uniform. It was worn and dirty when he came to work.
- At a fire on June 16 Smith had to pump the engine and assist another driver with his truck also.

- The week of July 7 Smith volunteered to attend a two-day National Fire Academy course.
- On August 19 you had to discuss the condition of Smith's uniform. It was dirty.
- On November 22 Smith was late to work by 20 minutes. He did not call in to notify you that he was going to be late. He offered no explanation about his tardiness. He was counseled about being on time.
- On December 29 Smith reported to work with trousers that were torn and unserviceable. You had to send him home to change. Based on this information about Smith, complete Form 100-1 beginning on the next page.

- Form 100-1

Form 100-1: Annual Performance Evaluation

Employee Name: _____ Employee Rank: Driver/Operator

Evaluator Name: _____ Evaluator Rank: _____

Date of Evaluation: _____ Evaluation Period: _____ to _____

For each of the driver/operator job duties listed below, assign a score of '1', '2', or '3' based on the employee's performance during the annual evaluation period. If a '1' is assigned, you must provide written justification for the rating in the space provided.

3 = Exceptional performance – The employee exceeds supervisor's expectations in this job duty.

2 = Satisfactory performance – The employee meets supervisor's expectations in this job duty.

1 = Unsatisfactory performance – The employee fails to meet supervisor's expectations in this job duty.

Job Duty	Performance Rating			
a. Station cleaning and maintenance	1	2	3	N/A
b. Maintenance of apparatus	1	2	3	N/A
c. Compliance with orders, directives & policies	1	2	3	N/A
d. Personal responsibility & initiative	1	2	3	N/A
e. Pump & equipment operation	1	2	3	N/A
f. Driving of apparatus	1	2	3	N/A
g. Personal appearance	1	2	3	N/A
h. Teamwork & cooperation	1	2	3	NA/
